Subject: RE: Limetree Bay project

Rob,

Thanks for this heads-up.

My assumption is that you're speaking of LeAnn Johnson, and given that she's previously been in to talk to us (*i.e.*, Bill, me, Alex, etc.) in OAR about Limetree Bay – “previously,” meaning the end of last year/beginning of this year, and not recently – I was thinking that she might possibly give me a call regarding this Subpart Y issue which you flagged last week in your status report. I'm perfectly fine with the direction you suggested to her, but should she proceed in a different direction and call me, I'll be sure to inform both you and Patrick Traylor about that contact. As you may know, a while back, Patrick and I agreed to keep each other apprised of such communications we each might have with LTB's counsel.

Subject: Limetree Bay project

David,

I took a call from LBT's lead counsel this morning suggesting that perhaps she would call you directly about the policy behind MACT subpart Y requirements for their Single Platform Mooring (SPM). I requested instead that they contact the two R2 subject matter experts that they have been asked (by DOJ, OECA and R2) to contact over the course of the past two months of CD discussions, provide all information requested of them, and pursue that path first. I believe that she

agreed to do that and work with R2 staff; but wanted to share the possibility that you'll receive a call. I'll provide updates if anything changes.

Thanks, Rob
